

Greetings from India

The Maybach automotive brand has been held in the highest esteem by Indian Maharajas and royalty for almost a century. The extraordinary Maybach cars of the 20's and 30's represent the highest form of engineering excellence and achievement; something we deeply respect, in India. It is a particular pleasure to see that the inheritors of the Maybach legacy are promoting youth development here in India and in the rest of the world.

Namaste.

The Maybach family foundation is that rare being that truly reaches out to its global partners, in an effort to collaborate and realize support for those whose destiny it is to make a difference.

We whole-heartedly support the Maybach Family Foundation and wish them all the best for their future endeavors. It is a personal honor for us to be aligned with them for their future activities in Asia, particularly the Indian subcontinent.

Thank you,

Anubhav Ramchander Nath
